Rates may vary on above accounts. Daily Balance Method is used to calculate interest on accounts. This method applies a daily periodic rate to the principal balance in the account each day. Interest will compound monthly on all checking, money market and savings accounts. Interest begins to accrue not later than the business day we receive credit for the deposit of non-cash items (i.e., checks). Fees could reduce the earnings on the above accounts. Rates are subject to change without notice. See Personal Banker for more details. Member FDIC.
